Art Unit 1615

Amended Claims

1.(amended) An adhesive preparation comprising a base drug salt and an organic acid salt, wherein said organic acid salt is in the form of powder having a mean diameter of 0.1-100 μm , and said drug forms an ion-pair with the organic acid salt.

5. (twice amended) The adhesive preparation according to claim 1, [characterized in that] wherein the organic acid salt is an acetic acid salt.

6.(amended) The adhesive preparation according to claim 5, [characterized in that] wherein the organic acid salt is sodium acetate.

9.(amended) The adhesive preparation according to claim 2, [characterized in that] wherein the organic acid salt is an acetic acid salt.

10.(amended) The adhesive preparation according to claim 9, [characterized in that] wherein the organic acid salt is sodium acetate.

11.(amended) The adhesive preparation according to claim 3, [characterized in that] wherein the organic acid salt is an acetic acid salt.

12.(amended) The adhesive preparation according to claim 11, [characterized in that] wherein the organic acid salt is sodium acetate.
